

CONFIDENTIALITY POLICY

The Confidentiality Specification given below comprises the provisions regulating the confidentiality conditions regarding your access to and use of the services provided in the internet sites www.arkaslojistik.com.tr ("Website") owned by **ARKAS LOJİSTİK A.Ş.** ("ARKAS LOGISTICS ") and in the content of these domain names.

By using the Website and the Services it contains, you will be providing ARKAS LOGISTICS with company registration information, information that may have the characteristics of a personal and trade secret, rich media files and data.

You will retain full ownership of information belonging to you.

We do not claim ownership rights on any part of the information in question. This Specification does not provide us with any right of disposition or intellectual property on your information, except for the fulfilment of Services and sharing of your company information with the third-party platforms in which you want this information to be published or broadcast.

The servers ('server') where your operations related to the Website are carried out on and other hardware have firewalls ('firewall') and network security systems of which reliability is constantly being tested. Also, this hardware is run with the most secure software.

The confidentiality and integrity of the credit card information you enter while making transactions on the website www.arkaslojistik.com.tr is ensured with encryption technology 256-bit SSL ('Secure Sockets Layer'). SSL ('Secure Sockets Layer') is still the most widely used encryption technology in the world. The data transferred with SSL technology are first encrypted, and then they can only be decrypted in the system of an institution that has a reliability certificate and key. In other words, SSL ensures that the information sent can only and definitely be decrypted at the correct address. On both sides, verification is performed; and the confidentiality and integrity of the transaction and information are preserved. In order for each piece of data you have entered which has been encrypted with 256-bit SSL to be decrypted later, 256 different passwords must be tried and the data must not have lost their meaningfulness when decrypted.

It is only possible after detailed examinations for a virtual store to purchase SSL technology from Comodo company. At www.arkaslojistik.com.tr owned by ARKAS LOGISTICS, SSL technology is used.

While making payment transactions, you can understand that the information you send is encrypted by the conversion of the Internet address of the page from 'http' to 'https'. The credit card information you have entered in www.arkaslojistik.com.tr, is directly forwarded to the system of the bank to which the credit card you use belongs, without entering our computer system. Therefore, there is no question of keeping credit card information in our system.

We undertake not to share with third parties your personal information and contact information that you enter/use while making payment transactions at www.arkaslojistik.com.tr

USE OF THIS SPECIFICATION, WEBSITE AND AFFILIATED SERVICES SHALL BE SUBJECT TO THE LAWS OF THE REPUBLIC OF TURKEY. ISTANBUL ANATOLIAN COURTS AND ENFORCEMENT OFFICES ARE EXCLUSIVELY AUTHORIZED FOR ALL KINDS OF JUDGMENTS REGARDING THE USE OF THIS SPECIFICATION, WEBSITE, AND AFFILIATED SERVICES OR ANY DISPUTE THAT MAY ARISE FROM THESE.
